

MATERIALS DEVELOPMENT

We aim to connect colleagues to:

1. **Explore and evaluate** the principles and procedures of the design, implementation and evaluation of teaching materials
2. **Respond** to evolving changes in higher education and learning needs to create cutting-edge language teaching materials
3. **Reflect** on ways to adapt and produce teaching materials to maximise learning impact

CAES Centre for
Applied English Studies
The University of Hong Kong

Themes:

1. **Collaborating** with students, faculties and other partners in materials development
2. **Exploring** innovations in materials development for impactful learning
3. **Expanding and contextualising** visual literacy in higher education

Possible Activities:

1. Group sharing of good practices in materials development
2. Group discussions of scholarly readings
3. Seminars by colleagues and external speakers
4. Collaborations on projects and grants
5. Presentations and publications
